

Welcome!

“Befriending Ghosts – Digital Hauntings” is an interactive online performance. At the end of the first video you can see, a URL will be displayed; if you enter this in the address line of your browser, you will be redirected to an external website from which you can navigate further through a network of different pages and platforms.

To do this, in the course of the online performance you must, for example, enter further URLs in the address line of your browser, click on links, solve a small puzzle to get a password (and enter it in the appropriate place) or send an e-mail to a specific e-mail address.

From almost every page within the network, you continue to a next station, and in some places you can also choose the next step between several options. There are very few endpoints from which no further step is possible, and these are clearly recognisable as such.

We recommend that you keep all browser tabs that open during the performance open so that you can track your path through the network at any time and easily return to a previous station if necessary.

All links have been carefully checked at the time of creation, nevertheless it is expressly pointed out that unexpected errors may occur. By entering an external website, you agree to the terms of use and privacy policy of the respective provider or website operator; individual cookie settings may have to be made for each website.
